CONSOLIDATED WANTED LIST (PART I - GERMANS)

# IT IS IMPORTANT THAT YOU READ THIS !

1. This List is the first part of the Consolidation of the names of all persons in CROWCASS Records who are wanted in connection with War Crimes and includes all Wanted Reports received up to 31 Jan. 1947 plus a few additional names not published in previous lists.
2. This list contains the names of all persons stated to be of German nationality who according to the information passed to CROWCASS are still wanted by the Allied Nations in connection with War Crimes. Persons who are stated to be of nationality other than German will be listed in the second part of this Consolidated List, which is in course of preparation and will be distributed shortly. All persons of UNKNOWN name will also be included in the second part.
3. This list also includes the names of all persons stated to be of German nationality who have been listed in the United Nations War Crimes Commission Lists Nos. 1 - 50 who, so far as CROWCASS is aware, are still wanted.
4. It is considered probable that some of the persons listed have been detained, some tried, some sentenced and others may be no longer wanted. If that is so, CROWCASS has not been informed and the various Allied Authorities who can supply such information are requested to do so immediately in order that CROWCASS Records may be adjusted. It is also possible that some Wanted Reports sent astray during the move of CROWCASS from Paris to Berlin and the names are therefore not included in this list. If such is the case new Wanted Reports should be submitted immediately and the names will be published in a supplementary List.
5. Names of persons known to be detained, and where the Wanting Authority has been informed accordingly, are not included in this list.
6. It is hoped that by now all authorities receiving a copy of this List will also have received and read the pamphlet entitled "What is CROWCASS?" in order that a better understanding may be reached concerning the functions of this organization and the service given to and required from all using agencies.
7. All recipients of this List are reminded of the following requirements as previously set out in the frontispieces of CROWCASS Wanted Lists:
  - (i) If any person listed should be located and detained the CROWCASS Detention Report (to be invariably submitted in respect of all Detainees) should be completed showing Reason for Arrest as "CROWCASS Consolidated Wanted List (Part I) CR.NO. ..." or "Possibly CROWCASS Consolidated Wanted List (Part I) CR.NO. ...". If a Wanted Person is located only and not detained as full a description as possible of the person located should be set out in letter form and forwarded to CROWCASS including the reason for non-detention.
  - (ii) In the event of CROWCASS thus receiving information of a match or possible match between a Wanted Person and a Detained or located Person the wanting nation is immediately informed, even although the Detainee may be held in the custody of that nation. In some cases where the persons name has not been listed by the UNWCC and where extradition is applied for considerable delay may be unavoidable. (See page (ii)). If and when the extradition of a CROWCASS Wanted Personality has taken place CROWCASS should be informed immediately.
  - (iii) If a Detaining Authority receives instructions to Release or Transfer any Detainee who is possibly or definitely a CROWCASS Wanted Personality a check should first be made with that Authority's War Crimes Group HQ. and a copy of the communication endorsed to CROWCASS.
  - (iv) The information given in this list about each person is all that is contained on the Wanted Reports filed with CROWCASS. The descriptions given are not summaries.
8. It is particularly requested that the War Crimes HQ.'s of all the Allied Nations endeavour to make special arrangements to have this List distributed to all Detaining Authorities, Prisoner of War Information Bureaus (or the equivalent) and all other HQ.'s or Formations which may be able to assist in locating the persons listed.
9. No doubt the Inter-Allied National policy as regards the probable duration of the Investigation of War Crimes will depend to quite a considerable extent upon the number of Alleged War Criminals "still at large" in the sense of not being in the custody of the nation who wants them. To help to reduce this period of duration and the enormous expenditure and man power involved all Allied Nations are again requested to exploit every means within their power to reduce this List as quickly as possible.
10. Pages 266 to 271 of Volume A-L include the names of persons (also A-L), especially listed under different headings owing to a lack of detailed information suitable for listing under the normal headings.
11. At Appendix "A" of Volume M-Z will be found a table showing the total number of persons included in this List who are wanted by each of the Allied Nations.
12. At Appendix "B" of Volume M-Z will be found a list of persons (herein listed as wanted) regarding whom Detention Reports have been received since the preparation of this List for publication was commenced.
13. CROWCASS has a teleprinter station in its office. It is "Station IFFP - Berlin". Using agencies are requested to make use of it as it greatly speeds up replies to requests for information.
14. CROWCASS holds large stocks of Blank Wanted and Detention Reports and they can be had on application by TFM, Signal or letter.
15. Whilst every effort has been made to eliminate error from this List there may still be left a few discrepancies which although unavoidable are regretted.

## CONCERNING THE UNITED NATIONS WAR CRIMES COMMISSION.

The following is quoted from Section X of Information Paper No. 1 issued by the Reference Division of the United Nations Information Organisation, London:

## INTER-ALLIED DECLARATION OF DECEMBER 17, 1942

On December 17, 1942, a Declaration was made simultaneously in London, Moscow, and Washington in connection with reports that the German authorities were engaged in exterminating the Jewish people in Europe. In this Declaration, the Governments of Belgium, Czechoslovakia, Greece, Luxembourg, the Netherlands, Norway, Poland, the United States of America, the United Kingdom, the Soviet Union and Yugoslavia and the French National Committee reaffirmed their solemn resolution that those responsible should not escape retribution and their intention to press on with the necessary practical measures to that end.

There was some delay in setting up the United Nations War Crimes Commission, but it was eventually brought into being by a meeting of Government representatives at the British Foreign Office on October 20, 1943.

## COMPOSITION OF THE COMMISSION

The Commission consists of seventeen members: the representatives of the Governments of Australia, Belgium, Canada, China, Czechoslovakia, Denmark, France, Greece, India, Luxembourg, the Netherlands, New Zealand, Norway, Poland, the United Kingdom, the United States of America and Yugoslavia. The representatives are all distinguished lawyers or diplomats.

If a representative is unable to act, or for some other special reason, he may be replaced.

The Commission may hear experts.

The first Chairman was the United Kingdom representative, Sir Cecil Hurst, Vice-President of the Permanent Court of International Justice, formerly legal adviser to the Foreign Office. After his resignation on account of illhealth, he was replaced by the Right Hon. Lord Wright, Lord of Appeal in Ordinary, who represents Australia on the Commission. Lord Wright has been Chairman since January 31, 1945.

## TERMS OF REFERENCE OF THE COMMISSION

The Commission has limited functions. It is primarily a fact-finding body, though it has also advisory functions.

Its terms of reference were defined in the Lord Chancellor's statement of October 7, 1942. Its purpose, he said is to investigate war crimes committed against nationals of the United Nations, recording the testimony available, and to report from time to time to the Governments of those nations cases in which such crimes appear to have been committed, naming and identifying wherever possible the persons responsible.

After its creation, it was entrusted with advisory functions, namely to make recommendations to the Governments on the methods to be adopted to ensure the surrender or capture of the persons wanted for trial as war criminals and on the tribunals by which they should be tried.

## HOW THE COMMISSION OPERATES

The United Nations War Crimes Commission prepares lists of war criminals on the basis of evidence submitted by National War Crimes Offices which have been set up to detect, investigate and record evidence of war crimes committed against the citizens or subjects of their own countries.

The lists are furnished to the apprehending authorities - at present the military authorities - in order that the persons accused of crimes against people or property may be sent back to the country against which they have offended. This was the procedure contemplated in the Moscow Declaration on Atrocities by President Roosevelt, Mr. Winston Churchill and Marshal Stalin which was issued on November 1, 1943 and by the Foreign Secretaries of their three countries, who had been attending the Moscow Conference of October 16 to 30.

After referring to the atrocities, massacres and mass executions which were being perpetrated by the Hitlerite forces, the Declaration said:

"The United Kingdom, the United States and the Soviet Union ....

"... speaking in the interests of the thirty-two United Nations ... solemnly declare and give full warning of their declaration as follows: At the time of the granting of any armistice to any Government which may be set up in Germany, those German officers and men and members of the Nazi Party who have been responsible for or who have taken a consenting part in the above atrocities, massacres and executions will be sent back to the countries in which their abominable deeds were done in order that they may be judged and punished according to the laws of these liberated countries and of the Free Governments which will be erected therein. Lists will be compiled in all possible detail from all these countries ..."

Offences against members of the Allied armed forces will be dealt with summarily by military courts, in accordance with international custom.

The following is a Statement issued by UNWCC especially for incorporation in this Consolidated Wanted List:

"All Allied Authorities concerned are reminded that in order to secure extradition they should submit to the United Nations War Crimes Commission in London dossiers with charges concerning the offences committed by persons wanted. The United Nations War Crimes Commission in accordance with its terms of reference decides whether there appears to be either prima facie evidence sufficient to justify the handing over for trial of individuals accused of War Crimes or else sufficient ground to consider the wanted persons as suspects or material witnesses"
